## Tasting Tips

- 1) **Start with your nose.** Does the aroma align with your expectation for the flavor?
- 2) **Sip with air.** Allowing the product to roll around your tongue and mix with some air will enhance your olfactory reading of the flavor.
- 3) **Mix up the order.** Tasting Sample 3 after tasting Sample 2, may be a different experience the other way around.
- 4) **Make notes right away.** On this sheet, or directly into the Sensapure Tasting App
- 5) **Like what you like.** Remember that tasting is an individual and very personal experience. We want YOUR reactions and insight to each sample... not a copy of your neighbors.
